In-Person Activity

SPOOKY BUG HUNT: OUTDOOR EDUCATION PROGRAM
Sunday, October 18 | 1–3PM

Become one with our six- and eight-legged friends as we hunt to find the most bugs in Wade Oval and surrounding areas. We will try our best to catch as many bugs as we can and discover which area has the most biodiversity. Please dress for the weather. This event promises family-friendly fun for all ages! Kids may come dressed in their costumes to this, but please ensure they can move easily/have free movement. (Note: There is no discount for showing up in costume.)

Members: $75 for a family of four, $8 for each additional child
Nonmembers: $80 for a family of four, $10 for each additional child

Virtual Event

BAR TRIVIA
Sponsored by Seven Brothers Distilling Co.
Tuesday, October 20 | 7–8:30PM

Join the Museum and its sponsor, Seven Brothers Distilling Co., for a Tuesday night of trivia. The questions will represent the many disciplines of study at the Museum. Win prizes and get tips from a local mixologist during the break as they mix up this month's cocktail—your only hint to the theme for the last round of the evening! Members will receive an exclusive clue via e-mail the day of the trivia game.

Min. Cost: $5 (Selecting an amount of $5 will help the Cleveland Museum of Natural History continue to pursue its important mission.)

HOLOCENE HALLOWEEN

Virtual Events

DISCOVERE: FOSSILS FOR KIDS
Wednesday, October 21 | 1PM

The whole family is invited to join our Assistant Curator of Vertebrate Paleontology Dr. Caitlin Colleary to discover how fossils form and provide clues about ancient animals and the environments they inhabited, and how we learn what animals looked like by studying their bones.

Dr. Caitlin will show-and-tell her favorite vertebrate fossils from each time period that has helped us to understand the history of life on Earth. Bring your questions for a live Q&A.

DISCOVERE: UNDEAD SCIENCE–HUMAN HEALTH AND MONSTERS
Tuesday, October 27 | 7PM

Vampires, zombies, and Frankenstein's monster aren't real, but what if they were? Explore the "what if" and "how" of the undead based in the real science of health and rooted in the basics of anatomy. Bring your wackiest questions to be tackled by Dr. Nicole Burt, the Museum's Curator of Human Health and Evolutionary Medicine, who will apply the same techniques scientists like herself use to solve important health mysteries.

In-Person Adventures

FALL ADVENTURE AT BLUE HERON FARM
Tuesday, October 27 | 4–6PM

Join us for the first field trip at the Museum's newest preserve—Blue Heron Farm.Take a brisk evening hike in search of diverse habitats, beautiful fall colors, and crepuscular creatures (like bats!).

$20/person for members, $35/person for nonmembers

HALLOWEEN, IT'S ASTRONOMICAL!
Wednesday, October 21 - Sunday, November 1, 2020
11:30AM and 3:30PM

We have a special Halloween this year! A Blue Moon and three planets will be shining down on us. Explore the astronomical origin of the holiday we now call Halloween, learn about the Blue Moon, and search out all three bright planets visible in the night sky–and one in the morning as well!

General admission plus $3/person for members,
$6/person for nonmembers

WILD ENCOUNTERS
Daily at the Museum | 11AM & 3PM

Enjoy Halloween and fall-themed live-animal demonstrations with our Wildlife experts in the Ralph Perkins II Wildlife Center & Woods Garden—Presented by KeyBank and in the Sears Hall of Human Ecology gallery.

Free with general admission.

HALLOWEEN COSTUME SOUVENIR PHOTOS
Saturdays & Sundays, 10/24–25 and 10/31–11/1 | 12–3PM

Join us at the Perkins Wildlife Center amphitheater** for a fun fall/Halloween photo opportunity. Get a snapshot of your children in their Halloween costumes or take a nice family photo to commemorate a fun day. Don't forget to share your photos on social media and tag the Museum at @goCMNH! You'll also receive a 5x7 photo printout to take home with you.

Free with general admission.

**Outdoor location is weather permitting. Photos may be taken inside in inclement weather.
